

▶ AccuFill® Indexing Bulking Systems

High throughput, reduced labor and robust design

AccuFill® Indexing Bulking Systems from Gainco deliver automation of bulk packing applications that are effective and have short payback periods.

AccuFill indexing bulker capabilities encompass the full range of fresh or frozen processing applications. They deliver efficient bulk packing for a variety of containers – including 22 lb., 40 lb., 70 lb. and 33 lb. export boxes.

The AccuFill line of indexing bulking systems increases throughput, reduces product giveaway, and generates significant labor savings.

Advantages and Benefits

- Labor savings
- High throughput capacity – up to 1,440 lbs. per minute
- From 8 up to 20 cycles per minute with the *new triple system*
- Advanced control options
- Reduced footprint and floor space requirements compared to manual operations
- Hygienic open-frame design for more effective washdown procedures
- On board diagnostics
- Maintenance-friendly

Features

- Compact design with small footprint
- AML sanitary design
- Design flexibility, with multiple configurations available: Single, dual and triple systems
- Knuckle chain conveyors with popup gates or flighted belt conveyors
- Triple Indexer has a conveyor control on the control panel

Applications for AccuFill® indexing bulking systems include:

► Chicken

- Leg quarters
- Whole legs
- Fronts
- Whole birds
- Breasts (bone-in or boneless)
- Wings
- Thighs (bone-in or boneless)

► Turkey

- Drums
- Wings
- Thighs
- Lobes
