

► Anritsu SSV Checkweighers

Advantages and Benefits

- Highest accuracy with the smallest footprint
- Fully featured with built-in SMF, statistical reporting and accuracy checks
- Improved process control means less product giveaway and higher profits
- Minimal setup time with excellent overall reliability
- Easy operation and maintenance due to modular design, tool-free belt removal and open frame construction
- Multi-lingual operation

The best combination of value and performance

Anritsu provides powerful checkweighing technology solutions to meet your requirements for accuracy, quality and reliability – all in a small equipment footprint.

With **Anritsu SSV Checkweighers**, you also gain the important benefits of **SMF (Smart Measurement Function)**. This unique, proprietary capability prevents unnecessary rejection due to double product errors while improving overall processing accuracy. Unlike conventional checkweigher designs, SMF solves the problem of rejects from inconsistent product spacing once and for all.

Moreover, you're assured of advanced quality control thanks to the comprehensive detection solutions we offer – including X-ray and metal detection equipment. We'll keep your processing line running at the highest levels of efficiency while ensuring safety and reducing risk.

Anritsu's exclusive SMF capability minimizes double product errors by using multi-threaded filters.

► Anritsu SSV Checkweighers – Equipment Specifications

Model	Maximum Weight (lb)	Accuracy (3σ)(g)	Maximum PPM	Belt Speed (ft/min)	Product Size (in)					
					Width		Length		Height	
					Min.	Max.	Min.	Max.	Min.	Max.
KWS5476BW76	6.5	+/-0.5 g	120	220	1	14	3	18	0.25	24
KWS5678BW77	33	+/-2 g	50	120	1	14	3	24	0.25	24

• Features

Touchscreen: 8.5"
 Tool-Free Removable Belting
 Tool-Free Removable Conveyors
 Clean Design with Easy Access

• Technology

SMF – Proprietary Smart Measurement Function for Improved OEE
 Temperature Compensation
 Proprietary Weigh Cell Design

• Reject Options

Flipper
 Pusher
 Retractable

• Design Format

Scale Resolutions (g): 0.1, 0.2, 1.0
 Environment: IP66
 Finish: Stainless Steel

• Software

Full Statistics – 8 Standard Display Screens
 Product Setup Navigation
 Multi-lingual (*English, Spanish, Portuguese*)
 Mean Tracking and Alarm (*optional*)
 Multiple/Consecutive Reject Alarm
 QuiCCA (*Overall Quality Management and Control System*) Support
 Operation Check (*HACCP audit*)

A Poultry Industry Partnership

Gainco is an authorized distributor of selected Anritsu products and equipment to the poultry processing industry in the United States, including checkweigher equipment and X-ray inspection systems.

Anritsu, a global leader in technology, has been producing superior checkweighing systems for the food industry for more than half a century. Anritsu provides a superior return on investment to companies throughout the world while enabling them to adhere to the most stringent HACCP programs. As a single-source supplier, no other company provides better support, experience and technology to detect contaminants and undertake product integrity checks.

With over 80,000 global checkweigher installations, Anritsu systems are engineered to meet or exceed specific line requirements. They offer the best combination of price and performance, along with the smallest footprint in the industry. Get to know Anritsu products and "discover what you've been missing."

Take the Next Step

To learn more about how Anritsu SSV checkweighers will benefit your poultry processing operation's efficiency and profitability, call toll-free **877-869-7410** to speak with one of our processing consultants. You may also visit gainco.com/SSV or e-mail your request to sales@gainco.com.
